ILGM CONFERENCE,
Stellenbosch, Western Cape
17th November 2017
The SALGA Human Resources Policy Conference held in Limpopo in 2010 fully endorsed the professionalisation of local government management at all levels.

Special ILGM Strategy Conference held in Durban in June 2011 provided an overwhelming mandate for the professionalisation of local government management agenda to be vigorously pursued.

At the ILGM Strategy Conference, a tri-partite relationship between ILGM, SALGA and the National Department of Cooperative Governance was established and affirmed to collectively drive the professionalisation of local government management in the RSA.

Various consultations with SALGA, the National Department of Cooperative Governance and the Parliamentary Committee have taken place subsequently.

The ILGM has now completed drafting the proposed Legislation & Ministerial Regulations and is ready to be submitted to Parliament via the processes of the National Department of Cooperative Governance.

While there is no agreed definition of a profession, the Australian Council of Professions (Professions Australia) defines a profession as:

'A disciplined group of individuals who adhere to high ethical standards and uphold themselves to, and are accepted by, the public as possessing special knowledge and skills in a widely recognised, organised body of learning derived from education and training at a high level, and who are prepared to exercise this knowledge and these skills in the interest of others'.

Inherent in this definition is the concept that the responsibility for the welfare, health and safety of the community shall take precedence over other considerations.'

(Dr John Southwick, 'Australian Council of Professions’ view', during proceedings of a joint conference on competition law and the professions, Perth, April 1997)

It would be compulsory for all Municipal Managers and local government managers to register with the proposed South African Local Government Management Council (SAPLGMC);

The Principles of the Code is derived from the general values of society and from the Local Government Management’s special responsibility to serve the public interest;

- A measure of good or bad behaviour;
- A measure of our commitment to the Local Government Management Profession;
- A measure of our accountability to the public we serve.
The Profession of Local Government Management requires that we commit ourselves as members of this profession to doing what is correct and honourable. The purpose of this Code is to:

- Set high standards for ourselves and aspire to meet these standards in all aspects of our lives – at work, at home, and in the service to our profession;

- Describe the expectations that we have of ourselves and our fellow professionals in the global village of managers in the local government community;
Articulate the ideals to which we aspire as well as the behaviours that are mandatory in our professional and volunteer roles;

- Instill confidence in the Local Government Management Profession and to help us become better professionals. We do this by establishing a profession-wide understanding of what is collectively agreed upon as appropriate behaviour;

- Promote collective rational interest as opposed to rational self-interest;

To enforce, maintain and implement the Code of Professional Conduct & Ethics for municipal managers and local government managers in South Africa.
The proposed Ministerial Regulation also covers the procedures of an alleged breach of the Code and outlines the procedure in terms of the Rules of Natural Justice on how the SAPLGMC should act:

- Recommendations of the Panel;

- meet the requirements of the Act;
- be the acceptable means for renewal of registration;
- meet the requirements for recognition of the SAPLGMCC’s assessment process with regard to international agreements; and
- ensure that those South African registered persons meet the requirements for their continued international registration.
WHAT IS CPD?

CPD can be defined as the systematic maintenance, improvement and broadening of knowledge and skills, and the development of personal qualities necessary for the execution of professional and technical duties throughout a person’s local government management career.

The SAPLGMC’s definition is widely drawn and not prescriptive so as to remain flexible enough to be relevant to all registered persons at all stages of their careers. The emphasis for meeting CPD requirements is not on the acquisition of credits for the attendance of academic or theoretical courses alone, but has been spread over 3 categories of activities, which would contribute to meeting the minimum CPD credits needed for renewal of registration.
CATEGORIES OF ACTIVITIES FOR CPD CREDITS
